

THERE'S WORK TO BE DONE

WEEK 1 | GOODNESS

INTRO

What is work? Why?

DISCUSSION

Psalm 65

1. Psalm 65:5-8 and Genesis 1 reference God's work through creation. How does that shape our thoughts that we are workers?
2. Ben mentioned that as society has progressed from most working the ground to most working in offices, or homes, that our work feels removed from God's creation. Do you think that makes it hard for people to see God in their lives and/or work? Why or why not?
3. In what ways in your work can you see the goodness of God's creation? How can you bring God's goodness into your work?
4. Do you think our society is one that those with power and money are esteemed and those without are not? Why or why not?
5. Does that distort our view of those perceived to be above or below us in society? Why or why not?
6. If God put work into creation that results in our benefit does that mean that we should also work in such a way that results in a benefit to others? Why or why not?
7. Christ's work and purpose was fulfilled while he was on earth when he died on the cross and rose again. What do you think is your work and purpose here on earth? Why?

PRAYER

Pray for each other.
