

DISCUSSION

READ: James 4:13-5:12, 18

1. What is an experience you've had that shifted your perspective on something?
2. What are some of the ways that we have an "illusion of control" in our modern American lives?
3. In the sermon, the following statistics were given:
 - Of the 7.888 billion people on the planet, those who make 50k in salary annually comprise .078 of that number. Meaning those who make 50k or higher out earn 7.8 billion people.
 - Worldwide, 1/10 people own a car.
 - 7/10 people worldwide are walking around in clothing that was washed by hand.
4. Are any of those statistics surprising? Which one stuck out to you the most?
5. Why do you think James is calling his readers to patience in this passage?
6. What are some ways that considering eternity can help change the way we live today?

PRAY

Pray for each other.
